Model BD8002 User Guide

Blu-ray / DVD Player
SAFETY INSTRUCTIONS

1. Read Instructions - All the safety and operating instructions should be read before the product is operated.

2. Retain Instructions - The safety and operating instructions should be retained for future reference.

3. Head Warnings - All warnings on the product and in the operating instructions should be adhered to.

4. Follow Instructions - All operating and use instructions should be followed.

5. Cleaning - Unplug this product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners.

6. Attachments - Do not use attachments not recommended by the product manufacturer as they may cause hazards.

7. Water and Moisture - Do not use this product near water - for example, near a bathtub, wash bowl, kitchen sink, or laundry tub; in a wet basement; or near a swimming pool, and the like.

8. Accessories - Do not place this product on an unstable cart, stand, tripod, bracket, or table. The product may fall causing serious injury to a child or adult, and serious damage to the product.

9. A product and cart combination should be moved with care. Quick stops, excessive force, and uneven surfaces may cause the product and cart combination to overturn.

10. Ventilation - Slots and openings in the cabinet are provided for ventilation and to ensure reliable operation of the product and to protect it from overheating, and these openings must not be blocked or covered. The openings should never be blocked by placing the product on a bed, sofa, rug, or other similar surface. This product should not be placed in a built-in installation such as a bookcase or cabinet unless proper ventilation is provided and the manufacturer’s instructions have been adhered to.

11. Power Sources - This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power source available, consult your product dealer or local power company.

12. Grounding or Polarization - This product may be equipped with a polarized alternating current line plug (a plug having one blade wider than the other). This plug will fit into the power outlet only one way. This is a safety feature. If you are unable to insert the plug fully into the outlet, try reversing the plug. If the plug still fails to fit, contact your electrician to replace your obsolete outlet. Do not defeat the safety purpose of the polarized plug.

13. Power-Cord Protection - Power-supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them, paying particular attention to cords at plugs, convenience receptacles, and the point where they exit from the product.

14. Outdoor Antenna Grounding - If an outside antenna or cable system is connected to the product, be sure the antenna or cable system is grounded so as to provide some protection against voltage surges and built-up static charges. Article 810 of the National Electrical Code, ANSI/NFPA 70, provides information regarding the grounding of the lead-in wire to an antenna-discharge unit, size of grounding conductors, location of antenna-discharge unit, connection to grounding electrodes, and requirements for the grounding electrode. See Figure A.

15. Lightning - For added protection for this product during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet. This will prevent damage to the product due to lightning and power-line surges.

16. Heat - An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, extreme care should be taken to keep from touching such power lines or circuits as contact with them might be fatal.

17. Overloading - Do not overload wall outlets, extension cords, or integral convenience receptacles as this can result in a risk of fire or electric shock.

18. Object and Liquid Entry - Never push objects of any kind into this product through openings as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock. Never spill liquid of any kind on the product.

19. Servicing - Do not attempt to service this product yourself as opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel.

20. Damage Requiring Service - Unplug this product from the wall outlet and refer servicing to qualified service personnel under the following conditions:
   a) When the power-supply cord or plug is damaged.
   b) If liquid has been spilled, or objects have fallen into the product.
   c) If the product has been exposed to rain or water.
   d) If the product does not operate normally by following the operating instructions. Adjust only those controls that are covered by the operating instructions as improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to its normal operation.
   e) If the product has been dropped or damaged in any way.
   f) If the product exhibits a distinct change in performance - this indicates a need for service.

21. Replacement Parts - When replacement parts are required, be sure the service technician has used replacement parts specified by the manufacturer or have the same characteristics as the original part. Unauthorized substitutions may result in fire, electric shock, or other hazards.

22. Safety Check - Upon completion of any service or repairs to this product, ask the service technician to perform safety checks to determine that the product is in proper operating condition.

23. Wall or Ceiling Mounting - The product should be mounted to a wall or ceiling only as recommended by the manufacturer.

24. Heat - The product should be situated away from heat sources such as radiators, heat registers, stoves, or other products (including amplifiers) that produce heat.
Introduction

FCC INFORMATION (For US customers)

1. PRODUCT
This product complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this product may not cause harmful interference, and (2) this product must accept any interference received, including interference that may cause undesired operation.

2. IMPORTANT NOTICE: DO NOT MODIFY THIS PRODUCT
This product, when installed as indicated in the instructions contained in this manual, meets FCC requirements. Modification not expressly approved by Marantz may void your authority, granted by the FCC, to use the product.

3. NOTE
This product has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This product generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this product does cause harmful interference to radio or television reception, which can be determined by turning the product OFF and ON, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the product into an outlet on a circuit different from that to which the receiver is connected.
- Consult the local retailer authorized to distribute this type of product or an experienced radio/TV technician for help.

CAUTION:
TO PREVENT ELECTRIC SHOCK, MATCH WIDE BLADE OF PLUG TO WIDE SLOT, FULLY INSERT.

ATTENTION: POUR ÉVITER LES CHOCS ÉLECTRIQUES, INTRODUIRE LA LAME LA PLUS LARGE DE L'ADAPTATEUR DANS LA BORNE CORRESPONDANTE DE LA PRISE ET POUSSER JUSQU'AU FOND.

Copyrights / Droits d'auteur / Derechos de Autor
- It is prohibited by law to reproduce, broadcast, rent or play discs in public without the consent of the copyright holder.
- La reproduction, la diffusion, la location, le prêt ou la lecture publique de ces disques sont interdits sans le consentement du détenteur des droits d'auteur.
- De acuerdo con las leyes está prohibido reproducir, emitir, alquilar o interpretar discos en público sin la autorización del propietario de los derechos de autor.

Note on use / Observations relatives à l'utilisation / Notas sobre el uso
- Keep the apparatus free from moisture, water, and dust.
- Protéger l'appareil contre l'humidité, l'eau et la poussière.
- Mantenga el equipo libre de humedad, agua y polvo.
- Do not let foreign objects into the apparatus.
- Ne pas laisser des objets étrangers dans l'appareil.
- No deje objetos extraños dentro del equipo.

- Handle the power cord carefully.
- Manipule le cordon d'alimentation avec précaution.
- Sostenga el enchufe cuando desconecte el cordón de energía.
- Do not obstruct the ventilation holes.
- Ne pas obstruer les trous d'aération.
- No obstruya los orificios de ventilación.
- Never disassemble or modify the apparatus in any way.
- Ne jamais démonter ou modifier l'appareil d'une manière ou d'une autre.
- Nunca desarme o modifique el equipo de ninguna manera.

- Unplug the power cord when not using the apparatus for long periods of time.
- Débrancher le cordon d'alimentation lorsque l'appareil n'est pas utilisé pendant de longues périodes.
- Desconecte el cordón de energía cuando no lo utilice el equipo por mucho tiempo.
- Do not let insecticides, benzene, and thinner come in contact with the apparatus.
- Ne pas mettre en contact des insecticides, du benzène et un diluant avec l’appareil.
- No permita el contacto de insecticidas, gasolina y diluyentes con el equipo.

This Class B digital apparatus complies with Canadian ICES-003. Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

### Introduction

#### Features

- **HDMI (High-Definition Multimedia Interface)**
  - You can enjoy clearer video output when connecting this unit to a display device with an HDMI-compatible port.
- **Dialog Speed**
  - Playback in slightly faster speed while keeping the sound output.
  - Dialog speed is available only on discs recorded in the Dolby Digital format.
- **Still/Fast/Step Playback**
  - Various playback modes are available including still pictures, fast forward/reverse, slow motion and step frames.
- **Still Mode**
  - The resolution of pictures while in the still (pause) mode can be adjusted.
- **Random Playback for audio CD, MP3, JPEG, and Windows Media® Audio**
  - You can program the playback order of tracks/files.
- **Program Playback for audio CD, MP3, JPEG, and Windows Media® Audio**
  - You can display BD/DVD menus in a desired language, if available on a BD/DVD.
- **Auto Power Off**
  - The power turns off automatically if there is no activity at the unit or its remote control for more than 30 minutes (refer to page 37).
- **Subtitles in a Desired Language**
  - You can select a desired language for subtitles if that language is available on the BD/DVD or DivX®.
- **Selecting a Camera Angle**
  - You can select a desired camera angle if a disc contains sequences recorded from different angles.
- **Choices for Audio Language and Sound Mode**
  - You can select a desired audio language and sound mode if different languages and modes are available on a disc.
- **ratings Control (Parental Lock)**
  - You can set the control level to limit playback of discs which may not be suitable for children.
- **Automatic Detection of Discs**
  - This unit automatically detects if a loaded disc is BD, DVD, audio CD, MP3, JPEG, Windows Media® Audio or DivX®.
- **Pure Direct**
  - The source quality of analog audio output is improved by stop output of video signals, etc.
Introduction

On-Screen Display
Information about the current operation can be displayed on a screen, allowing you to confirm the currently active functions (such as program playback) using the remote control.

Dimmer
The brightness of the front panel display can be adjusted.

Screen Saver
The screen saver program starts if there is no activity at the unit or its remote for more than 5 minutes. The brightness of the display darkens by 75%. The program is deactivated when there is any activity.

Picture Control
Picture control adjusts black level and noise reduction of the specific display.

Search
- Chapter search: Search for a desired chapter.
- Title search: Search for a desired title.
- Track search: Search for a desired track/file.
- Time search: Search for a desired time point or a title or a track/file.

Repeat
- Chapter: Repeated playback of a chapter of the disc.
- Title: Repeated playback of a title of the disc.
- Track: Repeated playback of a track/file of the disc.
- All: Repeated playback of the entire disc.
- A-B: Repeated playback of a part between two points.
- Group: Repeated playback of a folder of the MP3/JPEG/Windows Media™ Audio/DivX® disc being played back is possible.

Zoom
- x1.2, x1.5, x2.0, x4.0 magnified image can be displayed. (not available for BD)

Marker
Electric reference points designated by user can be recalled back.

Resume Playback
User can resume playback from the point at which the playback has been stopped even if the power is turned off.

Bit Rate Indication
The bit rate (the amount of video data currently being read) can be displayed during the playback of video contents. (not available for BD)

DRC (Dynamic Range Control)
Use this procedure to set the dynamic range of the output signals when playing back DVD/BD recorded in Dolby Digital/ Dolby Digital Plus/Dolby TrueHD.

Displaying a JPEG picture
Kodak Picture CD can be played back. Still images stored in JPEG format on DVD-RW/-R, CD-RW/-R or SD Memory Card can also be played back.

Playing Back Windows Media™ Audio File
You can enjoy Windows Media™ Audio files which are recorded on DVD-RW/-R, CD-RW/-R or SD Memory Card.

Playing Back an MP3 File
You can enjoy MP3 files which are recorded on DVD-RW/-R, CD-RW/-R or SD Memory Card.

Playing Back DivX® File
You can enjoy DivX® files which are recorded on DVD-RW/-R or CD-RW/-R.
- Official DivX® Certified product
- Plays all versions of DivX® video (including DivX® 6) with standard playback of DivX® media files.

Playing Back the Contents in SD Memory Card
- You can playback MP3, Windows Media™ Audio, or JPEG stored in an SD Memory Card.
- You can store picture-in-picture commentary, subtitles or other extras for BD-ROM Profile 1.1 files in an SD Memory Card and playback with the BD-ROM.

BD-J Application
- With some BD that supports Java applications (BD-J), you can enjoy interactive function (e.g., game).

Analog 7.1ch Surround Output
This player is equipped with analog 7.1-channel surround audio jacks for playback.

Important
Use only discs marked with logos listed on page 4.

Power Supply
The main power supply is engaged when the main plug is plugged in a 120V, 60Hz AC outlet. To operate the unit, press <ON / OFF> to turn on the unit.

Warning
To avoid fire or electric shock, do not expose this unit to rain or moisture.

WARNING:
LIVE PARTS INSIDE.
DO NOT REMOVE ANY SCREWS.

Non-use periods - Turn off the unit when it is not in use. Unplug the unit from the household AC outlet if it is not to be used for a long time. Unplug the unit during lightning storms.

Please read this operating instructions carefully before using the unit, and keep it for future reference.

Cautions on Installation
Noise or disturbance of the picture may be generated if this unit or any other electronic equipment using microprocessors is used near a tuner or TV. If this happens, take the following steps:
- Install this unit as far as possible from the tuner or TV. Set the antenna wires from the tuner or TV away from this unit's near a tuner or TV.
- Be sure to remove a disc and unplug the AC cord from the outlet before carrying the unit.

Installation Location
For safety and optimum performance of this unit:
- Do not stand the unit up vertically. Install the unit in a horizontal and stable position. Do not place anything directly on top of the unit. Do not place the unit directly on top of the TV.
- Shield it from direct sunlight and keep it away from sources of intense heat. Avoid dusty or humid places. Avoid places with insufficient ventilation for proper heat dissipation. Do not block the ventilation holes on the sides of the unit. Avoid locations subject to strong vibration or strong magnetic fields.
- Be sure to remove a disc and unplug the AC cord from the outlet before carrying the unit.

Non-use periods - Turn off the unit when it is not in use. Unplug the unit from the household AC outlet if it is not to be used for a long time. Unplug the unit during lightning storms.

Please read this operating instructions carefully before using the unit, and keep it for future reference.

Cautions on Installation
Noise or disturbance of the picture may be generated if this unit or any other electronic equipment using microprocessors is used near a tuner or TV. If this happens, take the following steps:
- Install this unit as far as possible from the tuner or TV. Set the antenna wires from the tuner or TV away from this unit's near a tuner or TV.
- Be sure to remove a disc and unplug the AC cord from the outlet before carrying the unit.

Non-use periods - Turn off the unit when it is not in use. Unplug the unit from the household AC outlet if it is not to be used for a long time. Unplug the unit during lightning storms.

Please read this operating instructions carefully before using the unit, and keep it for future reference.

Note
- For heat dispersal, do not install this equipment in a confined space such as a book case or similar unit.
Introduction

Before Using
Pay attention to the following before using this unit:

- **Moving the unit.**
  To prevent short-circuits or damaged wires in the connection cables, always unplug the power supply cord and disconnect the connection cables between all other audio components when moving the unit.
- **Store the operating instructions in a safe place.**
  After reading the operating instructions, store them in a safe place as they could come in handy in the future.
- **Whenever <ON/STANDBY> is in the STANDBY state, the unit is still connected to AC line voltage.**
  Please be sure to press <ON / OFF> to turn off the power or unplug the cord when you leave home for, say, a vacation.
- **Note that the illustrations in these instructions may differ from the actual unit for explanation purposes.**

The serial number of this product may be found on the back of the unit. No others have the same serial number as yours. You should record the number and other vital information here and retain this book as a permanent record of your purchase to aid identification in case of theft.

Dew Warning

Moisture condensation may occur inside the unit when it is moved from a cold place to a warm place, or after heating a cold room or under conditions of high humidity. Do not use the unit at least for 2 hours until its inside is dry.

Avoid the Hazards of Electrical Shock and Fire

- Do not handle the AC cord with wet hands.
- Do not pull on the AC cord when disconnecting it from AC wall outlet. Grasp it by the plug.
- If, by accident, water is spilled on this unit, unplug the AC cord immediately and take the unit to our authorized service center for servicing.

Trademark Information

HDMI, the HDMI logo and High-Definition Multimedia Interface are trademarks or registered trademarks of HDMI Licensing LLC.

Manufactured under license from Dolby Laboratories. Dolby and the double-D symbol are trademarks of Dolby Laboratories.

Manufactured under license under U.S. Patent #s: 5,451,942; 5,956,764; 5,974,380; 5,978,762; 6,487,535 & other U.S. and worldwide patents issued & pending. Supplied Accessories

Please check to make sure the following items are included with the main unit in the carton.
- Remote control (RC001BD)  
- "AA" (R6P) batteries x2
- AC cord
- User guide
- RCA audio cable
- Warranty card
- RCA video cable
### Introduction

**DivX, DivX Certified, and associated logos are trademarks of DivX, Inc. and are used under license.**

- Handle the discs so that fingerprints and dust do not adhere to the surfaces of the discs.
- Always store the disc in its protective case when it is not used.
- Note that discs with special shapes cannot be played on this product. Do not attempt to play back such discs, as they may damage the unit.

**Clean Discs**

- When a disc becomes dirty, clean it with a cleaning cloth. Wipe the disc from the center to out. Do not wipe in a circular motion.
- Do not use solvents such as benzine, thinner, commercially available cleaners, detergent, abrasive cleaning agents or antistatic spray intended for analog records.

---

### Playable Discs and Files

This unit is compatible to play back the following discs.

**Playable discs**

- Blu-ray Disc
  - BD-video
  - BD-RE (ver.2.1)
  - BD-R (ver.1.1)
  - (Unclosed discs may not be played back.)
- DVD-video
- DVD-RW (Finalized discs only)
- DVD-R
- DVD-R DL (Finalized discs only)
- CD-DA (audio CD)
- CD-RW
- CD-R
- Kodak Picture CD
- DTS - CD (5.1 Music Disc)

**Playable files**

- MP3
- Windows Media™ Audio
- JPEG
- DivX®

**Logos**

- Blu-ray Disc
- BD-video
- BD-RE
- BD-R
- DVD-video
- DVD-R
- DVD-R DL
- CD-DA
- CD-R
- Kodak Picture CD
- DTS - CD

**Media**

- DVD-RW/R
- CD-RW/R
- SD Memory Card
- SDHC Memory Card
- minSD Card
- microSD Card

---

**Note**

- Discs containing the DivX® files with the DivX ® GMC (Global Motion Compensation) playback feature, which is DivX® supplemental function, cannot be played back on this unit.
- This unit cannot play back the disc contents protected by Windows Media™ Digital Rights Management (DRM).
- "WMV" (Windows Media™ Audio) is an audio codec developed by Microsoft® in the United States of America.
- This unit supports AAC as an audio format recorded with video contents for BD-R, BD-RE. This unit does not support AAC as an independent audio file.

### Readable cards

**Playable files / data**

- SD Memory Card (8MB - 2GB): MP3, Windows Media™ Audio, JPEG, Picture-in-picture commentary, subtitles or other extras for BD-ROM Profile 1.1
- SDHC Memory Card (4GB): MP3, Windows Media™ Audio, JPEG, Picture-in-picture commentary, subtitles or other extras for BD-ROM Profile 1.1
- minSD Card (8MB - 2GB): MP3, Windows Media™ Audio, JPEG, Picture-in-picture commentary, subtitles or other extras for BD-ROM Profile 1.1
- microSD Card (8MB - 2GB): MP3, Windows Media™ Audio, JPEG, Picture-in-picture commentary, subtitles or other extras for BD-ROM Profile 1.1

**Note for SD Memory Cards**

- Do not remove the SD Memory Card or turn off the unit while the contents of the card is in playback. It may result in malfunction or loss of the card's data.
- Please keep the SD Memory Cards in their cases when you are not using them.
- Do not try to open or modify the card.
- Do not touch the terminal surface with your fingers or any metals.
- Do not attach additional labels or stickers to cards.
- Do not remove the label of the SD Memory Cards.
- This unit supports SD Memory Card with FAT12/FAT16 file system, and SDHC Memory Card with FAT32 file system.
- This unit may not read the SD Memory Cards formatted on computer. If that is the case, please reformat the SD Memory Cards on this unit and try again.
- This unit does not support mini SDHC and micro SDHC Memory Card.
- For miniSD Card and microSD Card adapter is necessary.

- Portions of this product are protected under copyright law and are provided under license by ARIS/SOLANA/4C.
Introduction

Unplayable Discs

The following discs will not play back on this unit.
- BD-RE Ver.1.0 (BD-disc with cartridge)
- BD-R Ver.1.2 (HTL 4x or LTH 2x)
- BD contains MP3/Windows Media™ Audio/ JPEG/ DivX® files
- BD/DVD hybrid disc (e.g., Total Hi Def hybrid disc)
- BD-video that does not include “A” on its region code.
- DVD-video that does not include either “1” or “ALL” on its region code.
- DVD-ROM/RAM/ For DVD-ROM discs, data files in DivX® 3.11, 4.x, 5.x and 6 can be played
- DVD-RW/-R recorded in non-compatible recording format
- CD-ROM (Data files in DivX® 3.11, 4.x, 5.x and 6 can be played)
- CDV (Only the audio part can be played)
- CD-G (Only the audio signals can be output)
- CompactDisc-Interactive (CD-I)
- Video Single Disc (VSD)
- Super audio CD (CD-I)
- Audio CD (Only the sound on the CD layer can be heard. The sound on the high-density super audio CD layer cannot be heard.)
- DVD-audio
- HD DVD
- Disc with recording area less than 55mm in diameter
- Unauthorized disc (Pirated disc)
- Unfinalized disc

Color Systems

BD and DVD are recorded in different color systems throughout the world. The most common color system is NTSC (which is used primarily in the United States and Canada). This unit uses NTSC, so BD or DVD you play back must be recorded in the NTSC system. You cannot play back BD or DVD recorded in other color systems.

Region Codes

This unit has been designed to play back BD with region A and DVD-video with region 1. You cannot play back BD or DVD-video that are labeled for other regions. Look for the symbols on the right on your BD or DVD-video. If these region symbols do not appear on your BD or DVD-video, you cannot play back the disc in this unit. The letter or number inside the globe refers to region of the world. A BD or DVD-video labeled for a specific region can only play back on the unit with the same region code.

Structure of Disc/SD Memory Card Contents

The contents of BD / DVD are generally divided into titles. Titles may be further subdivided into chapters.

Audio CDs are divided into tracks.

Data discs or SD Memory Cards contains MP3/Windows Media™ Audio/JPEG/DivX® is divided into folders, and the folders are subdivided into files.

Symbols Used in this Operating Instructions

To specify for which media type each function is, we put the following symbols at the beginning of each item to operate.

<table>
<thead>
<tr>
<th>Symbol</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>BD-V</td>
<td>Description refers to BD-video and BD-RE (ver. 2.1)/BD-R (ver.1.1) recorded in BDMV mode</td>
</tr>
<tr>
<td>BDAV</td>
<td>Description refers to BD-RE (ver.2.1)/BD-R (ver1.1) recorded in BDAV mode</td>
</tr>
<tr>
<td>DVD-V</td>
<td>Description refers to DVD-video and DVD-RW/-R recorded in video mode</td>
</tr>
<tr>
<td>DVD-VR</td>
<td>Description refers to DVD-R/-R recorded in VR mode</td>
</tr>
<tr>
<td>CD</td>
<td>Description refers to audio CD and DTS-CD</td>
</tr>
<tr>
<td>MP3</td>
<td>Description refers to DVD-R/-R, CD-R/-R and SD Memory Card with MP3 files</td>
</tr>
<tr>
<td>WMA</td>
<td>Description refers to DVD-R/-R, CD-R/-R and SD Memory Card with Windows Media™ Audio files</td>
</tr>
<tr>
<td>JPEG</td>
<td>Description refers to DVD-R/-R, CD-R/-R and SD Memory Card with JPEG files</td>
</tr>
<tr>
<td>DivX®</td>
<td>Description refers to DVD-R/-R and CD-R/-R with DivX® files</td>
</tr>
</tbody>
</table>

If you do not find any of the symbols listed above under the function heading, the operation is applicable to all media.

About the button names in this explanation

< > : Buttons on the main unit
[ ] : Buttons on the remote control

Button name only:
Buttons on the main unit and remote control
Keep in mind the following when using the remote control:

- Make sure that there are no obstacles between the remote control and infrared sensor window on the unit.
- Remote operation may become unreliable if strong sunlight or fluorescent light is shining on infrared sensor window of the unit.
- Remote control for different devices can interfere with each other. Avoid using remote control for other equipment located close to the unit.
- Replace the batteries when you notice a fall off in the operating range of the remote control.
- The maximum operable ranges from the unit are as follows.

To avoid the other Marantz’s BD players responding the remote signal of this unit, you can change the signal code of the remote control. If the signal code of the remote control does not match to the signal code of the unit, you cannot control the unit with the remote control.

### Change the signal code of the unit

1. In stop mode, press [SETUP].
2. Use [<] / [>] to select , then press [ENTER].
3. Use [<] / [>] to select then press [ENTER].
4. Use [△ / ▼] to select “Remote Control Setting”.
5. Press [ENTER] to select “BD1” or “BD2”.

- At this point the new signal code of the unit is effective. Please change the signal code of the remote control to match to the signal code of the unit with following procedure.

### Change the signal code of the remote control

#### Set to “BD1”:
Press hold down both and [1] on the remote control for at least five seconds.

#### Set to “BD2”:
Press hold down both and [2] on the remote control for at least five seconds.

- If the signal code does not match, the signal code of the remote control will be displayed on the front panel display.
- The default setting and the setting after you change the batteries is “BD1”.

---

### Loading the Batteries

1. Open the battery compartment cover.
2. Insert two “AA” (R6P) batteries, with each one oriented correctly.
3. Close the cover.

### Cautions on Batteries

- Use “AA” (R6P) batteries in this remote control.
- Replace the batteries with new ones approximately once a year, though this depends on the frequency with which the remote control is used.
- If the remote control does not operate within a close proximity of the main unit, replace the batteries with new ones, even if less than a year has passed.
- The included batteries serve only for verifying operation. Replace them with new batteries as soon as possible.
- When inserting the batteries, be careful to do so in the proper direction, following the  and  marks in the remote control’s battery compartment.
- To prevent damage or battery fluid leakage:
  - Do not mix a new battery with an old one.
  - Do not mix two different types of batteries such as alkaline and manganese.
  - Do not short-circuit, disassemble, heat or dispose of batteries in flames.
  - Remove the batteries when not planning to use the remote control for a long period of time.
- If the batteries should leak, carefully wipe off the fluid from the inside of the battery compartment, then insert new batteries.
Introduction

Part Names and Functions

Front Panel

1. STANDBY indicator
   This indicator lights up in green when the power is on, and lights up in red in standby mode.

2. ON/STANDBY button
   Press to turn the unit to standby mode. In standby mode, this unit still consumes small amount of power.

3. ON / OFF (POWER) switch
   Press to turn the unit on and off. If you turn off the unit using this switch, the unit does not consume power. In this condition, this unit does not accept any button except this switch.

4. VIDEO NR indicator
   Indicates that video signals of a BD, DVD, etc., are being processed digitally with the DNR (Digital Noise Reduction) processing.

5. Infrared sensor window
   Receives signals from your remote control so that you can control the unit from a distance.

6. Display
   Refer to “Front Panel Display” on page 9.

7. SD CARD slot
   Insert an SD Memory Card, and play back the contents in it.

8. Disc tray
   Place a disc when opening the disc tray.

9. OPEN/CLOSE button
   Press to open or close the disc tray.

10. PLAY button
    Press to start or resume playback.

11. STOP button
    Press to stop playback.

12. (SKIP DOWN/UP) button
    Press to skip down/up titles/chapters/tracks/files.

13. (FAST FORWARD/REVERSE) button
    Press to search forward / backward through a disc.

14. PAUSE button
    Press to pause playback.

15. VIDEO NR (NOISE REDUCTION) button
    Press repeatedly to reduce the overall level of noise on the picture (DNR). Each time you press the button, the level of the DNR switches "Off" → +1 → +2 → +3 → "Off".

16. HDMI (RESOLUTION) button
    Press to set the HDMI jack’s video signal output mode.

Rear Panel

1. DIGITAL OUT jack
   Use digital audio coaxial/optical cable to connect to an AV receiver, Dolby Digital decoder or other device with a digital audio coaxial/optical input jack.

2. 7.1ch AUDIO OUT jacks
   Use an RCA audio cable to connect these jacks to the 7.1-channel audio input jacks of your amplifier with 7.1-channel input terminals.

3. 2ch AUDIO OUT jacks
   Use an RCA audio cable to connect these jacks to the 2-channel audio input jacks of your amplifier with 2-channel input terminals.

4. VIDEO OUT jack
   Use an RCA video cable to connect to a TV monitor, AV receiver or other device.

5. S VIDEO OUT jack
   Use an S-video cable to connect to the S-video input jack of external device.

6. HDMI OUT jack
   Use an HDMI cable to connect to a display with an HDMI input jack.

7. COMPONENT VIDEO OUT jacks
   Use a component video cable to connect to a display device with component input jacks.

8. REMOTE CONTROL OUT/IN jacks
   By connecting this Blu-ray player to another Marantz component, you can remotely operate the components as a single system. For connections, use the control adaptor cable. (Mini Jack to RCA)

9. CONTROL CONNECTOR (RS-232C)
   This is a terminal for future system extension.

10. AC IN Terminal
    Use to connect the AC cord to supply the power.

Note
- Do not touch the inner pins of the jacks on the rear panel. Electrostatic discharge may cause permanent damage to the unit.
The unit can also be turned on by pressing the buttons with circled numbers.

1. **POWER ON button**
   - Press to turn the unit on.
2. **POWER OFF button**
   - Press to turn the unit to standby mode.
3. **A-B REPEAT button**
   - Press to mark a segment between A and B for A-B repeat playback.
4. **REPEAT button**
   - Press to select the repeat mode.
5. **RANDOM button**
   - Press to display the random playback screen for shuffling the playback order of tracks/files.
6. **ZOOM button**
   - During playback, press to enlarge the picture on the screen.
7. **CLEAR button**
   - Press to clear the information once entered, to clear the marker settings, or to cancel the programming for CD, etc.
8. **RED/GRN/BLU/YEL button**
   - Press to select item on some BD menus.
9. **TOP MENU button**
   - Press to display the top menu.
10. **Cursor**
    - Press to select items or settings.
11. **ENTER button**
    - Press to confirm or select menu items.
12. **SETUP button**
    - During playback, press to display the picture adjustment menu, and rapid playback.
    - During the JPEG playback, press to display menus for changing the visual effect for switching the image or changing the size of the image.
    - In stop mode with BD inserted, press to display a menu for setting the BD audio mode.
    - In stop mode with BD or DVD inserted, press to display a menu for setting the virtual surround.
    - In stop mode with audio CD, or disc with MP3, Windows Media™ Audio, JPEG files inserted, press to display menus for program and random playback.
13. **MODE button**
    - Press to display the audio menu.
14. **RETURN button**
    - Press to return to the previously displayed menu screen.
15. **POP UP MENU / MENU button**
    - Press to display the disc menu.
16. **SEARCH MODE button**
    - Press to display the search menu.
17. **Number buttons**
    - Press to enter the title/chapter/track/file numbers.
18. **OPEN/CLOSE button**
    - Press to open or close the disc tray.
19. **STOP button**
    - Press to stop playback.
    - Press to exit from the title menu.
20. **REW button**
    - During playback, press to fast reverse the playback.
21. **STILL/PAUSE button**
    - Press to pause playback.
    - When playback is in pause, press repeatedly to forward the playback step by step.
22. **FFW button**
    - During playback, press to fast forward the playback.
    - When playback is in pause, press to slow forward the playback.
23. **PLAY button**
    - Press to start playback or resume playback.
24. **ANGLE button**
    - Press to access various camera angles on the disc.
    - Press to rotate the JPEG/Kodak Picture images.
25. **PURE DIRECT button**
    - Press to stop output of video signals, etc., and output only the analog audio signals to achieve high quality sound from analog audio outputs.
26. **DISPLAY button**
    - Press to display the On-Screen display menu.
27. **SKIP button**
    - During playback, press to return to the beginning of the current title chapter, track or file.
28. **SKIP button**
    - During playback, press to skip the next chapter, track or file.

**Note**
- [ZOOM] and [RANDOM] are not available for BD.
Adjusting the Brightness of the Display

You can adjust the brightness of the display by pressing \[\text{DIMMER}\] repeatedly. The brightness changes as bright \(
\rightarrow\text{dimmer} \rightarrow\) auto each time you press \[\text{DIMMER}\]. If you select auto, the display gets dimmer during playback.

**Note**

\[\text{DIMMER}\] is not available when the setup menu is displayed.

**Examples of Displays during Operation**

17. Appears various type of information on the disc, the elapsed playing time, etc.
Connections

Connecting to a TV

Make one of the following connections, depending on the capabilities of your existing device.

- **Method 1** (analog audio): standard picture
- **Method 2** (RCA audio cable): good picture
- **Method 3** (RCA video cable): better picture

**Supplied cables used in this connection are as follows:**
- RCA audio cable (L/R) 1
- RCA video cable 1

Please purchase the rest of the necessary cables at your local store.

**Note**
- Connect this unit directly to the TV. If the RCA audio/video cables are connected to a VCR, pictures may be distorted due to the copy protection system.
- If the display device to which the player is to be connected is compatible with progressive scan video, connect to the component video input.
- This unit’s COMPONENT VIDEO OUT jacks are compatible for 480i/480p/720p/1080i video resolution. If the connected display device is not compatible for 480p/720p/1080i video resolution, set “Component Output” to “480i”. (For playing back BD, 480i video resolution is not available.)
- If the picture is not output properly to the display device because of the “HDMI Video Resolution” or “Component Output” setting, press and hold \( \text{B} \) on the front panel for more than 5 seconds. The “HDMI Video Resolution” setting will be reset to the default automatically.
- If you are using HDMI connection and set “HDMI Video Resolution” to “1080p” or “1080p24”, picture may not be output properly to the display device. In that case, set “HDMI Video Resolution” to “480p”, “720p” or “1080i”.

Connecting to a Display Device with HDMI Cable

Connecting this unit to device with an HDMI jack using an HDMI cable enables digital transfer of both digital video signals and multi-channel audio signals.

After making the connection, please make HDMI settings on setup menu according to your display device. Refer to page 30-32.

Connecting to a Display Device and an Amplifier/Receiver with HDMI Cable

Connecting this unit to display device and an amplifier/receiver with an HDMI jack using HDMI cables enables digital surround sound with high quality video.

**Cables not included.**
Please purchase the necessary cables at your local store.
Connections

HDMI Output Mode and Actual Output Signals

Press <HDMI RESOLUTION> to select the HDMI output mode. HDMI video resolution changes as follows:

<table>
<thead>
<tr>
<th>Front Panel Display</th>
<th>HDMI Video Resolution</th>
</tr>
</thead>
<tbody>
<tr>
<td>480i, P</td>
<td>480 Progressive</td>
</tr>
<tr>
<td>Press &lt;HDMI RESOLUTION&gt;</td>
<td>↓</td>
</tr>
<tr>
<td>720i, P</td>
<td>720 Progressive</td>
</tr>
<tr>
<td>Press &lt;HDMI RESOLUTION&gt;</td>
<td>↓</td>
</tr>
<tr>
<td>1080i</td>
<td>1080 Interlaced</td>
</tr>
<tr>
<td>Press &lt;HDMI RESOLUTION&gt;</td>
<td>↓</td>
</tr>
<tr>
<td>1080i, P</td>
<td>1080 Progressive</td>
</tr>
<tr>
<td>Press &lt;HDMI RESOLUTION&gt;</td>
<td>↓</td>
</tr>
<tr>
<td>1080i, P24</td>
<td>1080 Progressive 24 frame</td>
</tr>
<tr>
<td>Press &lt;HDMI RESOLUTION&gt;</td>
<td></td>
</tr>
</tbody>
</table>

Note
- You can change the HDMI output mode with <HDMI RESOLUTION> during playback as well.
- After you select a HDMI output mode, the supported HDMI video resolution will be output.
- Video and audio signals may be distorted temporarily when switching to/from the HDMI output.
- You can also change the HDMI output mode from “HDMI Video Resolution” in the “Video” menu on the setup menu. In this menu, you can confirm what HDMI video resolutions are supported by connected display device. Refer to page 31.
- In order to get natural and high quality film reproduction of 24-frame film material, use HDMI cable (High Speed HDMI cable is recommended) and select “1080p24” if the connected display device is compatible with 1080p24 frame input. For BD, with the 1080p24 frame, you can enjoy natural and high quality film production of 24-frame film material.
- Even when “HDMI Video Resolution” is set to “1080p24”, if “V/P Direct” is set to “OFF” or for playing back DVD, a video resolution supported by the disc and the display device will be output instead of 1080p24 frame.
- There is no output from VIDEO OUT, S VIDEO OUT and COMPONENT VIDEO OUT jacks when you play back a BD that recorded 24-frame film material.
- COMPONENT VIDEO OUT jacks may not output any signals when you set “HDMI Select” to “RGB” or “HDMI Deep Color” to “Auto”.
- When both HDMI OUT and COMPONENT VIDEO OUT jacks are connected to display device, and HDMI output is “1080p”, the video signal may not be output properly from the COMPONENT VIDEO OUT jacks.
- If you change the HDMI output mode with <HDMI RESOLUTION> during BD playback, it may take 2 to 10 seconds to change, and while changing the HDMI output mode, sound and video will be stopped.
- “HDMI Deep Color” is available only when the display device is connected by HDMI cable and supports HDMI Deep Color.
- For “Auto” in “HDMI Deep Color” and for “1080p” or “1080p24” in “HDMI Video Resolution”, using the High Speed HDMI cable is recommended.

Audio Setting

When using HDMI connections make the “HDMI Audio Out” settings in the “Audio” menu on the setup menu according to the specifications of the device or monitor to be connected.

<table>
<thead>
<tr>
<th>Device to be connected</th>
<th>“HDMI Audio Out” setting</th>

</tbody>
</table>

Note on HDMI Audio Out setting:
- You need to press the AUDIO button to select the “HDMI Audio Out” setting again after selecting <HDMI RESOLUTION>.
- You can also change the HDMI output mode from “HDMI Video Resolution” on page 7.
- If you change the HDMI output mode with <HDMI RESOLUTION> during BD playback, it may take 2 to 10 seconds to change, and while changing the HDMI output mode, sound and video will be stopped.
- “HDMI Deep Color” is available only when the display device is connected by HDMI cable and supports HDMI Deep Color.
- For “Auto” in “HDMI Deep Color” and for “1080p” or “1080p24” in “HDMI Video Resolution”, using the High Speed HDMI cable is recommended.

* HDMI compatible format: 2 channel (not DTS, DTS-HD, Dolby Digital, Dolby Digital Plus or Dolby TrueHD compatible)
Connections

*1 If "BD Audio Mode" is set to "Mix Audio Output" audio will be output as Multi LPCM. Refer to page 23.
*2 Outputs audio signals decoded from independent substream.
*3 For DTS-HD Master Audio, outputs audio signals decoded from DTS-HD Master Audio stream, and for DTS-HD High Resolution Audio, outputs audio signals decoded from DTS core stream.

If the connected device is not compatible with the HDMI BITSTREAM, audio will be output as Multi LPCM or 2ch Downmix LPCM depends on the capability of the connected device even if you select "HDMI Multi(Normal)" in "HDMI Audio Out" setting. Refer to page 32.

Copyright protection system

To play back the digital video images of a BD/DVD via an HDMI connection, it is necessary that both the unit and the display device (or an AV amplifier) support a copyright protection system called HDCP (high-bandwidth digital content protection system). HDCP is copy protection technology that comprises data encryption and authentication of the connected AV device. This unit supports HDCP. Please read the operating instructions of your display device (or AV amplifier) for more information.

* HDMI: High-Definition Multimedia Interface

Note

- When using HDCP-incompatible display device, the image will not be viewed properly.
- Among the devices that support HDMI, some devices can control other devices via the HDMI jack, this unit cannot be controlled by another device via the HDMI jack.
- The audio signals from the HDMI jack (including the sampling frequency, the number of channels and bit length) may be limited by the device that is connected.
- Among the monitors that support HDMI, some do not support audio output (e.g. projectors). In connections with device such as this unit, audio signals are not output from the HDMI output jack.
- If the BD title does not have secondary or interactive audio, the audio will be output as shown in the table.
- This table applies only when HDMI is not connected or the "Audio Mute" is selected in "HDMI Audio Out" setting.

Digital Connection to an AV Amplifier with Built-in Decoder

- In order to output LPCM signal from DIGITAL OUT jack while outputting the HDMI audio signal, set "BD Audio Mode" to "Mix Audio Output".
- When "BD Audio Mode" is set to "Mix Audio Output".
- When "HDMI Audio Out" is set to "Audio Mute".
- When "Digital Out" is set to "Bitstream".

Audio signals output from DIGITAL OUT

When both HDMI and DIGITAL OUT is connected to other devices, the audio signals currently output from the HDMI OUT will be output from the DIGITAL OUT jack as well, except that Dolby Digital signal will be output instead of Dolby Digital Plus and Dolby TrueHD, and DTS signal will be output instead of DTS-HD.

When HDMI is not connected or "Audio Mute" is selected→

To set "Digital Out", press [SETUP], then select "Quick" → "HDMI Audio Out" → "Audio Mute" or "Custom" → "Audio" → "HDMI Audio Out" → "Audio Mute".

Note for Optical Cable

- Optical cable may be damaged when bent at sharp angles. Ensure cables are coiled in loops with a diameter of 6 inches (15cm) or more when storing them.
- Use a cable which is 9.8 feet (3m) or shorter.
- Insert cable plugs firmly into the jacks when making connections.
- If a plug has dust or is dirty, clean it with a soft cloth before inserting it into a jack.

Cables not included.

Please purchase the necessary cables at your local store.

Analog 7.1ch/5.1ch audio signals can be output from 7.1ch AUDIO OUT jacks.

After you made all necessary connections, connect the AC cord to the AC IN. Then connect the AC cord to the AC outlet.

Connection to a Device with 2-channels of Analog Audio Inputs

Supplied cables used in this connection are as follows:
• RCA audio cable (L/R) x 1

Note
• When connecting to a 2-channel audio stereo device, use the 2ch AUDIO OUT jacks. If the 7.1ch AUDIO OUT jacks are used, set "7.1ch Audio Out" in the "Audio" menu to "2 Channel" (Refer to page 33). For software recorded in multi-channel, analog signals that have been down-mixed into 2 channels are output. (For sources which are prohibited from down-mixing, only the FL/FR signals are output.)

Surround Connections to a Device with 7.1/5.1-channels of Analog Audio Inputs

Analog 7.1ch/5.1ch audio signals can be output from 7.1ch AUDIO OUT jacks.

Supplied cables used in this connection are as follows:
• RCA audio cable (L/R) x 1

Note
• If you connect to 5.1-channel surround system, do not connect to SBR/SBL (surround back R/L) jacks, then set "Surround Back" in "Speaker Configuration" to "None".

Connecting the AC cord

After you made all necessary connections, connect the AC cord to the AC IN. Then connect the AC cord to the AC outlet.

Supplied cables used in this connection are as follows:
• AC cord x 1

Note
• Insert the plugs securely. Incomplete connections will result in the generation of noise.

Please purchase the rest of the necessary cables at your local store.
**Playback**

### Turning the Power On

1. Press <ON / OFF>. The power indicator lights red and the power is set to the standby mode.
2. Press <ON/STANDBY> or [POWER ON]. The power indicator lights green and the power turns on.

### Turning the Power off

Press <ON/STANDBY> or [POWER OFF].
- The power is set to the standby mode.
- Press <ON / OFF>.
- The power indicator turns off, and so does the power.

**Note**
- Power continues to be supplied to some of the circuitry even when the power is in the standby mode. When leaving home for long periods of time or when traveling, either press <ON / OFF> to turn off the power, or unplug the AC cord from the AC outlet.

### Direct Playback

1. Turn on the power of this unit. (Refer to “Turning the Power On” on this page.)
2. Turn on the display device and select the appropriate input on the device to which the unit is connected.
3. Press ▲ to open the disc tray.

### About the button names in this explanation

< >: Buttons on the main unit
[ ]: Buttons on the remote control
Button name only: Buttons on the main unit and remote control

---

4. Place the disc on the disc tray with its label side facing up.
5. Press ▼ to close the disc tray.
6. Press ▲ to start playback.
   - For many of BD-video and DVD-video, a menu screen may appear. In this case, use [△ / ▽ / ◄ / ►] to select the desired item, then press [ENTER].
7. Press ▼ once to stop playback temporarily.
   - Refer to “Resume Playback” on page 16.
   - To eject the disc: Press ▲ to open the disc tray, then remove the disc before turning off the unit.

**Note**
- ▲ may appear at the top-right on the screen when the operation is prohibited by the disc or this unit.
- During the playback of 2-layered disc, pictures may stop for a moment. This happens when the 1st layer switches to the 2nd layer. This is not a malfunction.
- The operation may vary when you play back BD/DVD with disc menu. Refer to the manual accompanying the disc for details.
Many of BD and DVD discs contain Disc menu (DVD), Title menu (BD/DVD) or Pop-up menu (BD-video) which describes the contents of the disc, or a disc menu, which guides you through the available functions in the disc. The contents of the menus may differ depending on the discs.

**Disc menu (DVD)**
1) Press [POP UP MENU / MENU].  
   • The disc menu will appear.
2) Use [△ / ▽ / ◀ /▶] to select an item, then press [ENTER].

**Title menu (BD/DVD)**
1) Press [TOP MENU].
2) Use [△ / ▽ / ◀ /▶] to select an item, then press [ENTER].

**Pop-up menu (BD-video)**
- This is a special feature available for some BD. When you press [POP UP MENU / MENU], a menu pops out on the screen while the contents still play back.
1) During BD playback, press [POP UP MENU / MENU].
2) Use [△ / ▽ / ◀ /▶] to select an item, then press [ENTER].

**Playing Back a BDAV mode BD-RE/-R and a VR mode DVD-RW/-R**

When you are playing back a BDAV mode BD-RE/-R and a VR mode DVD-RW/-R, you can choose “Original” or “Playlist” if the disc contains a “Playlist”.

1) In stop mode, press [POP UP MENU / MENU] to call up BD/DVD menu.
2) Use [△ / ▽] to select “Original” or “Playlist”.
3) Use [△ / ▽] to select desired title, then press [ENTER].

**Note**
- “Original” is the title which is actually recorded on the disc.
- Playlist is edited version of the Original.
- BD/DVD menu varies depending on discs.
- If the disc does not contain Playlist, Playlist will not be displayed on the BD/DVD menu.

**Pause**
1) During playback, press [II]. Playback will be paused.
2) Press [ ] to return to normal playback.

**Note**
- For BD, DVD and DivX®, set “Still Mode” to “Field” in the “Video” menu if pictures in the pause mode are blurred (refer to page 31).
1) During playback, press ■.
   • Resume message will appear on the screen.

2) Press ◄.
   In a few seconds, playback will resume from the point at which it stopped last. To cancel the resume playback and start playing back the disc from the beginning, press ■ again while the playback is stopped.

**Note**
- For MP3, JPEG or Windows Media™ Audio, playback will resume from the beginning of the current file.
- The resume information will be saved even when the power is in standby mode.
- If you open the disc tray or press ■ again in stop mode, the resume information will be cleared.
- If you switch between “Disc” mode and “SD Memory” mode, the resume information will be cleared.
- Resume playback is not available for the BD that supports Java applications (BD-J).

### Fast Forward / Fast Reverse Playback

- BD-V
- BDAV
- DVD-V
- DivX®
- MP3
- WMA
- DVD-VR

1) During playback, press ◄ or ► repeatedly to select a desired forward or reverse speed.

   ![Button](Example: BD)

2) Press ◄ to return to normal playback.
   - For BD and DVD, speed changes in 5 different levels. For audio CD, MP3, Windows Media™ Audio, and DivX®, speed changes in 3 different levels.
   - For audio CD, MP3 and Windows Media™ Audio, sound will be output at any speed of fast forward and reverse search.

**Note**
- For MP3 and Windows Media™ Audio, fast forward/fast reverse search between different files are not available.
- For audio CD, fast forward/fast reverse search between different tracks are not available during the program and random playback.
- For some DivX® files, fast forward/fast reverse search may not function.

### Slow Forward Playback

- BD-V
- BDAV
- DVD-V
- DivX®

1) During playback, press ■.
2) Press ◄ or ◄.
   - Slow motion playback will begin and sound will be muted.
3) Press ◄ or ◄ repeatedly to select a desired speed.
   - Slow forward speed changes in 3 different levels.

   ![Button](Example: BD)

4) Press ◄ to return to normal playback.

**Note**
- Set “Still Mode” to “Field” in the “Video” menu if pictures in the pause mode are blurred (refer to page 31).
- Only step by step forward is available.

### Step by Step Playback

- BD-V
- BDAV
- DVD-V
- DivX®

1) During playback, press ■.
   • Playback will pause and sound will be muted. The disc advances frame by frame each time ■ is pressed.

2) Press ◄ to return to normal playback.

**Note**
- Set “Still Mode” to “Field” in the “Video” menu if pictures in the slow playback mode are blurred (refer to page 31).
- Slow reverse is not available.
Dialog Speed

This function plays back approximately at 1.3 times of normal playback while keeping the sound output. This function is available only on discs recorded in the Dolby Digital format.

1) During playback, press [MODE] repeatedly until the dialog speed setting appears.

2) Press [ENTER] or [Y/Z] to switch (x1.3), or off.

3) Press [MODE] to return to normal playback.

Note

• Every time you press [MODE], the setting will be turned “Off”.
• Subtitle can be viewed during this function.
• Picture adjustment, and audio language setting cannot be changed during this function.
• Virtual surround does not function during this function.
• This function may not work at some points on a disc.
• During this function, Multi/2ch LPCM will be output from HDMI output, 2ch LPCM will be output from digital audio output, or 2ch analog sound will be output from analog audio out.

Repeat Playback

Available repeat function may vary depending on the discs.

1) During playback, press [REPEAT] repeatedly until desired repeat mode appears on the screen.

The following repeat modes are available.

<table>
<thead>
<tr>
<th>Repeat mode</th>
<th>Available media</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chapter repeat</td>
<td>BD-V BDAV DVD-V</td>
</tr>
<tr>
<td>Title repeat</td>
<td>BD-V BDAV DVD-V</td>
</tr>
<tr>
<td>Track repeat</td>
<td>CD MP3 WMA JPEG</td>
</tr>
<tr>
<td>Group repeat</td>
<td>MP3 WMA JPEG DivX®</td>
</tr>
<tr>
<td>All repeat</td>
<td>BDAV DVD-VR CD</td>
</tr>
</tbody>
</table>

A-B Repeat

Desired section can be played back repeatedly.

1) Press [A-B REPEAT] at the desired starting point A.
2) Press [A-B REPEAT] at the desired ending point B.
3) Press [A-B REPEAT] to exit the sequence.
2) Use [MODE].

You can program the disc to play back in your desired order.

1) In stop mode, press [MODE].
   - The program screen will appear.

2) Use [△/▽] to select a track/file, then press [ENTER].

   - For MP3, Windows Media™ Audio, and JPEG, use [△/▽] to select a folder, then press [ENTER] first, and then use [△/▽] to select a track/file, then press [ENTER].
   - Press [CLEAR] to erase the last track/file of the program.
   - Select “All Clear” at the bottom of the list to erase all the tracks/files in the program.
   - The programmed track/file is displayed in the right hand screen.
   - If the entire program cannot be displayed on the screen, “-” or “*” appears.
   - Use [<]/[>] to go back forward between the hierarchy of folders.
   - If eight or more tracks/files were set in a program, use the [△/▽/△] to see all the tracks/files.

   - CD MP3 WMA JPEG

   Program Playback

   <Example: MP3>

3) Press [△] to start program playback.
   - Program playback will start.

   Note
   - During the program playback, press [REPEAT] once to set the resume point, and then press [△] to resume the program playback from where [△] was pressed (audio CD) or from beginning of the file where [△] was pressed (MP3, Windows Media™ Audio, or JPEG).
   - During the program playback, press [REPEAT] twice to display the program screen. To go back to the normal program playback, press [RETURN] to exit from the program screen, then press [△].
   - Your program is still stored until either the disc tray is open or power is turned off.
   - Up to 99 tracks/files can be entered.
   - To repeat the current track/file in the program, press [REPEAT] repeatedly until “Track” appears during playback.
   - To repeat the entire program press [REPEAT] repeatedly until “All” appears during playback.
   - Even if an inserted disc contains mixed MP3, JPEG and Windows Media™ Audio files, program function allows 99 files in combination of MP3, JPEG and Windows Media™ Audio files.
   - The current selected number on the front panel display blinks while setting the program playback.
   - “***” is displayed in the front panel display while selecting the folder.(*** is folder number.), and file is displayed as “...” after the folder indication.
   - Playback from a desired track/file and random playback are not available during program playback.

   Random Playback

   CD MP3 WMA JPEG

   This function shuffles the play back order of tracks/files.

1) In stop mode, press [RANDOM].

   - “RAND” is displayed on the front panel display.
   - For a disc containing mixed MP3, JPEG and Windows Media™ Audio files, random playback of those files will be performed.
   - “RAND” is displayed on the front panel display.

2) Press [△] to start random playback.

   Note
   - During the random playback, press [REPEAT] once to set the resume point, and then press [△] to resume the random playback from where [△] was pressed (audio CD) or from beginning of the file where [△] was pressed (MP3, Windows Media™ Audio, or JPEG).
   - During the random playback, press [REPEAT] twice to display the random playback screen. To cancel the random playback, press [RANDOM] when the random playback screen is displayed.
   - To repeat the current track/file in the random selection, press [REPEAT] repeatedly until “Track” appears during playback.
   - To repeat the entire random selection press [REPEAT] repeatedly until “All” appears during playback.
   - You cannot go back to the previous track/file during random playback.
   - For a disc containing mixed MP3, JPEG and Windows Media™ Audio files, random playback of those files will be performed.
   - “RAND” is displayed on the front panel display.
Zoom

   • Playback will continue.
2) Press [ZOOM] repeatedly to select a desired zoom factor:
   • x1.2, x1.5, x2.0, x4.0 or off.
   • "x4.0" zoom is not available for JPEG and DivX®.
3) Use [△ / ▽ / ◄ / ►] to move the zoomed picture across the screen.
4) Press [ZOOM] to exit zoom mode.

Camera Angle

   • The selected angle will be displayed on the display bar at the top of the screen.
2) Use [△ / ▽] to select your desired angle.

Search

1) Press ▶ to skip to the next chapter, track or file during playback.
   To go back to the previous chapter, track or file, press ◀ twice in quick successions.

About the button names in this explanation

Button name only:
   Buttons on the main unit and remote control unit

Note
• For BD, zoom function is not available.
• Zoom function does not work while disc menu is shown.
• Navigation screen is not available on JPEG.
• You cannot pan through the zoomed picture on some JPEG files.
• For some DVD, "x4.0" zoom is not available.
• For DivX® files with small image, zoom function is not available.
• For DivX®, depends on the size of the image, some zoom factor may not available.
Marker search

This feature allows you to assign a specific point on a title or track to be called back later.

1) During playback, press [SEARCH MODE] repeatedly until marker setting appears.
2) Use [◄ / ▶] to select a marker number (1-9).
3) When the disc reaches the point you want to set a marker, press [ENTER].
   • The title or track and elapsed playback time will appear on the screen.
4) Press [SEARCH MODE] or [RETURN] to exit.
5) To return to the marker later, call the marker setting by pressing [SEARCH MODE] repeatedly during playback or in stop mode, and use [◄ / ▶] to choose a desired marker, then press [ENTER].

Note
• Opening the disc tray, turning off the power or selecting “AC” at step 2 and pressing [ENTER] will erase all markers.
• To clear a marker, use [◄ / ▶] to select the marker number to be cleared and press [CLEAR].
• You can mark up to 9 points.
• For BD-video, marker search between different titles is not available.
• For BD, you can return to the marker only during playback.

On-Screen Display

You can check information about the current disc by pressing [DISPLAY] during playback.

To call the On-Screen Display, press [DISPLAY] during playback. Depending on the media, available information varies.

- If HDMI is not connected, “---” will be displayed for HDMI information.

Selecting the Format of Audio and Video

Selecting Audio Streams/Channels
BD-V  BDAV  DVD-V  DVD-VR  CD  DivX®

Some BD and DVD contain multiple audio streams. Those are often in different audio languages or audio formats. For BD available audio varies depends on the “BD Audio Mode” setting. Refer to page 23 for more information.

BD-V
1) During playback, press [AUDIO].
2) Use [△ / ▽] to select “Primary” or “Secondary” audio to set, then press [ENTER].

“Primary” : Sets the audio for the main picture.
“Secondary” : Sets the audio for the sub-picture. When sub-picture is on, the “Secondary” audio will be output with the sub-picture.
- In order to listen to the secondary audio, the “BD Audio Mode” must be set to “Mix Audio Output”. Refer to page 23.
3) Use [△ / ▽] to select your desire audio stream/channel.
4) Press [AUDIO] to exit.

Note
- For BDAV mode BD-RE/-R and VR mode DVD-RW/-R with MTS (Multi-channel Television Sound) system, you can switch between “1.Main” (main audio), “1. Sub” (sub audio), and “1.Main/Sub” (main and sub audio).
- For some BD, secondary audio will be output even when sub-picture is off.
- The sound mode cannot be changed during playback of discs not recorded in multiple sound.
- Some discs allow to change audio language setting on the disc menu. (Operation varies between discs. Refer to the manual accompanying the disc.)
- Pressing [AUDIO] may not work on some discs with multiple audio Streams/Channels (e.g. DVD which allow to change audio setting on the disc menu).
- If you choose a language that has a 3-letter-language code, the code will be displayed every time you change the Audio Language setting. If you choose any other Languages, “---” will be displayed instead (refer to page 39).
- Audio Language selection cannot be made during dialog speed (refer to page 17).
- If the disc has no audio language, “Not Available” will be displayed.
- For discs with DivX® files, only MP3, MP2 or Dolby Digital audio is displayed. Other audio will be displayed with “---”.
- For DTS-CD (S.1 music disc), selecting audio streams or channels is not available.

BD-V
1) During playback, press [SUBTITLE].
2) Use [△ / ▽] to select “Primary Subtitle”, “Secondary Subtitle” or “Subtitle Style”, then press [ENTER].

“Primary Subtitle” : Sets the subtitle for the main picture.
“Secondary Subtitle” : Sets the subtitle for the sub-picture.
“Subtitle Style” : Sets style of the subtitle.
3) Press [SUBTITLE] to exit.

Note
- Some discs will only allow you to change the subtitle from the disc menu. Press [TOP MENU] or [POP UP MENU / MENU] to display the disc menu.
- If 4 digit language code appears in the subtitle menu, refer to “Language Code” on page 39.
- If the disc has no subtitle language or subtitle style, “Not Available” will be displayed.
- For DivX®, the screen only displays the number of subtitle languages.
Virtual Surround

You can enjoy stereo phonic virtual space through your existing 2-channel stereo system.
1) In stop mode, press [MODE] repeatedly until the virtual surround setting appears.
2) Use \[U/V\] to select "1" (Natural effect), "2" (Emphasized effect) or "Off".
3) Press [RETURN] to exit.

Note
• Select virtual surround "Off" or lower the volume if the sound is distorted.
• This function cannot be used during dialog speed (refer to page 17).
• For the virtual surround, audio signal will always be 2-channel LPCM.

Pure Direct Mode

“Normal” : Normal playback mode (pure direct mode is off).
“Video Off” : Video signal will not be output.
“Display Off” : Circuitry for front panel display and indicators will be shut down.
“All Off” : Video signal will not be output and circuitry for front panel display and indicators will be shut down.

Note
• If you turn off the unit or put this unit to standby mode, the pure direct mode will go back to “Normal”.

Setting the BD Audio Mode

BD-V
BD audio mode is to choose between two ways; you could output the secondary and interactive audio accompanied by the primary audio or you could output the primary audio only. Depending on the setting of the mode, Dolby Digital, DTS, Dolby Digital Plus, Dolby TrueHD, or DTS-HD output changes between Multi LPCM and bitstream.
1) In stop mode with BD inserted, press [MODE].
2) Use \[U/V\] to select desired setting.
3) Press [RETURN] to exit.

Note
• In “Mix Audio Output” mode, even you set “HDMI Multi(Normal)” in “HDMI Audio Out” setting, multi LPCM will be output from HDMI OUT for BD audio. Refer to page 11.
• In “Mix Audio Output” mode with HDMI audio being output, 2-channel downmix LPCM will be output from DIGITAL OUT for BD audio.
• In “Mix Audio Output” mode with “HDMI Audio Out” set to “Audio Mute” and “Digital Out” set to “Bitstream”, DTS, DTS-HD and LPCM will be output as Dolby Digital for BD audio. Refer to page 12.
• In “Mix Audio Output” mode, from 7.1ch AUDIO OUT, Dolby Digital Plus, Dolby TrueHD and DTS-HD will be output as multi LPCM decoded from its corresponding core stream.
Playback

Adjusting the Picture

BD-V | BDAV | DVD-V | DVD-VR | DivX®

You can adjust the picture quality and store the setting you have adjusted on memory 1-5.

1) During playback, press [MODE] repeatedly until the picture adjustment menu appears.
   • Picture adjustment menu:

   Memory 1

2) Use [△ / ▽] to select a memory from “Memory 1” to “Memory 5” to store your setting, then press [ENTER].

3) Use [△ / ▽] to select an item to be adjusted, then use [◄ / ►] to adjust the setting.
   • To reset to the default setting, press [RETURN], use [△ / ▽] to select “STD”, then press [ENTER].

   • When bright points of the disc side are adjusted to the “dark” of the output side, the fine parts of the bright portion that normally become hard to see, become an easily discerned image.

   • When dark points of the disc side are adjusted to the “bright” of the output side, the fine parts of the dark portion that normally become hard to see, become an easily discerned image.

4) Press [RETURN] repeatedly to exit.

Note

• This setting is not effective for the picture output from VIDEO OUT and S VIDEO OUT jack.
• The setting remains even you turn off the unit.
• You cannot adjust the setting during the rapid playback, or when the pure direct is set to “Video Off” or “All Off”.
• DNR can also be adjusted by pressing <VIDEO NR (NOISE REDUCTION)> on the front panel. (refer to page 7.)

* Effective for the video signal of COMPONENT VIDEO OUT (except for 480i) and HDMI OUT jacks.

* Not effective for the video signal of HDMI OUT jack.
Playing Back an MP3, Windows Media™ Audio, JPEG and DivX® File

1. Insert a DVD-RW/-R or CD-RW/-R with MP3, Windows Media™ Audio, JPEG, DivX® files.
   • The file list will appear on the screen.
   • If file list does not appear automatically, press [POP UP MENU / MENU] to exit and resume the file list.
   • Press [POP UP MENU / MENU] to go back and forward between the hierarchies.
   • If you press [ENTER] on the files playback will start.

2. Use [Δ / V] to select a desired folder or file, then press [ENTER]. Use [Y / Z] to go back and forward between the hierarchies.
   • If you press [ENTER] on the files playback will start.

3. About the button names in this explanation
   < >: Buttons on the main unit
   [ ]: Buttons on the remote control
   Button name only: Buttons on the main unit and remote control

It is recommended that files to be played back in this unit are recorded under the following specifications:

**<MP3 / Windows Media™ Audio>**
- Sampling frequency: 44.1 kHz or 48 kHz
- Constant bit rate: 112 kbps - 320 kbps (MP3), 48 kbps - 192 kbps (Windows Media™ Audio)

**<JPEG>**
- Upper limit: 2,560 x 1,900 dots (sub sampling is 4:4:4)
- 5,120 x 3,840 dots (sub sampling is up to 4:2:2)
- Lower limit: 32 x 32 dots
- File size of image maximum: 12 MB

**<DivX®>**
- Official DivX® Certified product
- Playable codec of AVI files: DivX® 3.x, DivX® 4.x, DivX® 5.x, DivX® 6.0
- Maximum size of image: 720 x 480 @30 fps, 720 x 576 @25 fps
- Sampling frequency of audio: 8 kHz - 48 kHz
- Audio type: MPEG1 audio layer 3 (MP3), MPEG1 audio layer 2, Dolby Digital

**Note**
- The system can recognize up to 255 folders/999 files for CD, 999 folders/9999 files for DVD and SD Memory Card.
- The name of folder and file can be displayed up to 28 characters. Unrecognizable characters will be replaced with asterisks.
- The 9th and deeper hierarchies cannot be displayed for CD and the 10th and deeper hierarchies cannot be displayed for DVD and SD Memory Card.
- Files whose extension is other than “.mp3(MP3)”, “.wma(Windows Media™ Audio)”, “.jpg / .jpeg(JPEG)” or “.avi/.divx” will not be listed.
- Some unplayable folders or files may be listed due to the recording status.
- High-resolution JPEG files take longer to be displayed.
- Progressive JPEG files (JPEG files saved in progressive format) cannot be played back on this unit.
- This unit recognize up to 8 characters of file name in the SD Memory Card. Characters after 9th will not be displayed.
Playback

**To Play Back the DivX® Subtitle Created by the User.**

The subtitle created by the user can be displayed during DivX® playback.

1) After selecting the DivX® file, the “Subtitle List” will appear when “DivX Subtitle” is set to anything other than “Off”. (Refer to page 30.)

2) Use [△ / ▽] to select the desired extension you want to display, then press [ENTER].

DivX® with the subtitle starts playback. The subtitle cannot be displayed when the setting is “Off”.

- If there is more than one extension, the extension selection appears in the subtitle list.

- If you insert a DVD-RW/-R, CD-RW/-R with DivX Playback to select your desired media to play back then press [ENTER].

- When you purchased or rented a DivX® product (Refer to page 30.)

- Some DivX® VOD files are restricted with the limited playable times (you cannot play them back beyond the limit). If your DivX® VOD file has such limit, the playback confirmation screen will appear.

- Use [△ / ▽] to select “Yes” if you want to play back the file, or to select “No” if you do not wish to play it back. Then, press [ENTER] to confirm the selection.

- You cannot play back the DivX® VOD files, of which rental period has expired. In such case, press [POP UP MENU / MENU] and select other files that can be played back.

- You cannot play back the DivX® VOD files obtained with different registration codes on this unit. Press [POP UP MENU / MENU] and select other files that can be played back.

- You cannot playback the DivX® file that has the resolution which this unit does not support. This unit does not support the DivX® files that have the image size that exceeds 720 x 480 @ 30fps or 720 x 576 @ 25fps.

- If you try to playback the DivX® file that has the screen resolution which this unit does not support, the playback will be stopped and error message will appear.

- Even if the file has an extension of either “.avi” and “.divx”, this unit cannot play it back if it is recorded in the format other than DivX®.

- It may take a while for audio and images to be output after you inserted a disc and pressed ▶.

- When playing back the files recorded in high bit rates, the images can be interrupted in some occasions.

- Although DivX® logo has been obtained for this unit, it may not be able to play back some data, depending on the characteristics, bit rates, or audio format settings, etc.

- A DivX® file whose file size exceeds 2 GB cannot be played back.

- If a large-sized DivX® file is selected, it may take awhile to start the playback (over 20 seconds sometimes).

- If you try to playback the DivX® file that has the screen resolution which this unit does not support, the playback will be stopped and error message will appear.

- Some DivX® files cannot be played back on this unit due to the configuration and characteristics of the disc, or due to the condition of recording and authoring software.

- Multi-session burn DivX® DVD cannot be played back on this unit.

**Note for DivX® Subtitle**

- To utilize this function, the following conditions must meet.
  - “DivX Subtitle” must be activated in “Language” setting. (Refer to “DivX Subtitle” on page 30.)
  - Playback file and the subtitle file must have the same name.
  - Playback file and the subtitle file must locate in the same folder.
  - Only the subtitle files with the following extensions are supported: .smi (.SMI), .srt (.SRT), .sub (.SUB), .ass (.ASS), .ssa (.SSA), .txt (.TXT), .sub (.SUB) and .txt (.TXT) files may not be recognized.
  - The subtitles that exceeds the playback time of the DivX® file will not be displayed.

---

**What is DivX®?**

- DivX® is a codec (compression/decompression) that can compress images to a very small amount of data. The software can compress video data from almost any devices to the size that can be sent on the Internet without compromising visual quality of the images.

- A file with an extension of “.avi” and “.divx” is called a DivX® file. All files with the DivX® extension are recognized as MPEG4.

- For more information for DivX®, please visit http://www.divx.com.
This unit can also run JPEG files stored on Kodak Picture CD. You can enjoy picture images on the display device set by playing back the Picture CD. This unit confirms to ver.7.0 of Kodak Picture CD. For details of Kodak Picture CD, contact a shop that provides developing service of Kodak Inc.

You can play back the MP3, Windows Media™ Audio and JPEG files in an SD Memory Card. With the SD Memory Card, you can also enjoy the special additional contents for BD-ROM Profile 1.1 which can be downloaded from the internet. You can store the contents on an SD Memory Card via computer and play them back with the BD-video. For more information about the special additional contents, please refer to the instruction book that came with the disc.

Kodak Picture CD

1. Current track number/the total number of tracks
2. Indication of previous/next page
   - In stop mode, press [POP UP MENU / MENU] to call Kodak Picture CD menu.
   - Use [Δ / V / < / >] to select a desired track to be played back, then press B or [ENTER].
   - An image will be played back from the selected track and go to the next one in turn.
3. Press [ ] to stop playback.

Tips for JPEG/Kodak Picture Playback
- Every press on [ANGLE] will turn the image clockwise by 90 degrees when an image is displayed.
- To change the visual effect for switching the playback image, press [MODE] once, then use [Δ / V] or [ENTER] to switch between “Cut In/Out” and “Fade In/Out”. The size change may have no effect on some files (e.g. files with a small picture size).
- To change the size of the playback image, during the JPEG/ Kodak Picture playback. Press [MODE] twice, then use [Δ / V / < / >] or [ENTER] to switch between “Normal” (100%) and “Small” (93%). The size change may have no effect on some files (e.g. files with a small picture size).

Reading the SD Memory Card

1. Press [SETUP] in stop mode.
2. Use [Y / Z] to select , then press [ENTER].
3. Use [Y / Z] to select , then press [ENTER].
4. Use [U / V] to select “Media Select”.
5. Press [ENTER] repeatedly to select “SD Memory”.

- This will set the unit to “SD Memory” mode. To play back the contents in any discs, exit “SD Memory” mode by selecting “Disc”.
Inserting the SD Memory Card and playback

1. Insert an SD Memory Card into the SD CARD slot until it clicks with the label facing up. File list will appear.

2. Follow the step 2 in “Playing Back an MP3, Windows Media™ Audio, JPEG and DivX® File” on page 25.

Removing the SD Memory Card

1. In stop mode, push the SD Memory Card and then slowly remove your finger.

2. Grasp the card and pull it out from the SD CARD slot.

Compatible Cards:
- SD Memory Card (8MB - 2GB)
- SDHC Memory Card (4GB)
- miniSD Card (8MB - 2GB)
- microSD Card (8MB - 2GB)

For minSD Card and microSD Card, adapter will be required.

Note
- Do not remove the card during its playback.
- This unit supports SD Memory Card with FAT12/FAT16 file system, and SDHC Memory Card with FAT32 file system.
- Do not delete the folders or files in the SD Memory Card with your computer. This unit might not read the SD Memory Card.
- This unit recognizes up to 8 characters of file name in the SD Memory Card. Characters after 9th will not be displayed.
Function Setup

Using the Setup Menu
In the setup menu you can change the setting for audio, video, language, etc. You cannot change the setting during playback.

Quick
Quick setting menu contains setting items extracted from custom setting menu which may be used frequently. Custom menu contains all the setting items.

1 Press [SETUP] in stop mode.
2 Use [< / >] to select , then press [ENTER].
3 Use [< / >] to select setting items.
4 Follow the procedure below depending on the setting items.
   For setting item A:
   Press [ENTER] repeatedly to change options.
   • For “DivX® VOD”, press [ENTER] to display your registration code.
   For setting item B:
   1) Press [ENTER].
   2) Use [< / >] to select options, then press [ENTER].
      • Use [<] or [RETURN] to go back to the previous screen.
5 Press [SETUP] to exit.

Custom
Custom menu contains all the setting items.

1 Press [SETUP] in stop mode.
2 Use [< / >] to select , then press [ENTER].
3 Use [< / >] to select your desired setting category, then press [ENTER].
   : Language : Video : Audio : Ratings
   : Others
   • For “Ratings”, follow the procedure on page 36.
4 Use [< / >] to select setting items.
   • The setting items which are not available with current situation of this unit will be displayed in gray and you cannot select the items.
5 Follow the procedure below depending on the setting items.
   For setting item A:
   Press [ENTER] repeatedly to change options.
   • For “DivX® VOD”, press [ENTER] to display your registration code.
   For setting item B:
   1) Press [ENTER].
   2) Use [< / >] to select options, then press [ENTER].
      • Use [<] or [RETURN] to go back to the previous screen.
6 Press [SETUP] to exit.

- For how to select the setting items and options, refer to "Custom" on page 29.

### TV Aspect

- 16:9 Wide*: Select this when a wide-screen TV is connected.
- 4:3 Pan & Scan: Select this to play back the disc recorded in wide screen format with 4:3 TV in the pan & scan mode (with the sides of the picture cut off). Discs which pan & scan is not specified are played in the letter box mode.
- 4:3 Letter Box: Select this to play back the disc recorded in wide screen format with 4:3 TV in the letter box mode. (with black strips at the top and bottom).
- 4:3 Squeeze Auto: When playing 4:3 images, the picture is displayed in the center of the 16:9 screen with a 4:3 aspect ratio.
- 4:3 Squeeze On: The picture is displayed in the center of the 16:9 TV screen with a 4:3 aspect ratio, regardless of the original image size.

### HDMI Select

- YCbCr*: Component format video signals and audio signals are output from the HDMI OUT.
- RGB: RGB format video signals and audio signals are output from the HDMI OUT.
### Function Setup

#### Setting items | Options
---|---
**HDMI RGB Setting**<br>Sets the digital RGB image range (data range) output from the HDMI OUT. | Normal*: Output as “16 (black)” to “235 (white)”.
Enhanced: Output as “0 (black)” to “246 (white)”. Depending on the display device you are using, the black colors may seem to stand out when using HDMI connections. If so, set to “Enhanced.”

**HDMI Auto Format**<br>Makes the setting of the “Auto” for “HDMI Video Resolution”. | Max*: The maximum resolution that can be input to the connected HDMI device is detected and the HDMI output resolution is selected automatically.
Panel: The number of pixels of the connected HDMI device’s panel is detected and the HDMI output resolution is selected automatically.

**HDMI Video Resolution**<br>Sets the HDMI video resolution. | Auto*: HDMI video resolution will be selected automatically depending on the connected HDMI device and setting of the “HDMI Auto Format”.
480p
720p
1080i
1080p
1080p24:

**HDMI Deep Color**<br>Sets whether output the picture from HDMI with the Deep Color or not. | Auto*: The picture through the HDMI will be output with Deep Color if connecting device supports Deep Color.
Off: The picture through the HDMI will be output without Deep Color.

**I/P Direct**<br>Sets whether output the 24-frame material directly from the HDMI OUT or not. This setting is for BD only. | Off: 24 frame material will be converted to 60 frame and output 1080p60 frame from the HDMI OUT.
On: 24 frame material will be output directly 1080p24 frame from the HDMI OUT.

#### Setting items | Options
---|---
**Component Output**<br>Sets the video resolution for component output. | 480i*
480p
720p
1080i
1080p

**Progressive Mode**<br>Sets the optimum progressive mode for the image material output from HDMI OUT jack and COMPONENT VIDEO jacks. | Auto*: The progressive mode will be selected automatically depends on the material type (film or video).
Video1: Suited for playing video material discs.
Video2: Suited for playing video material discs and 30-frame film material discs.

**Audio/Video Sync**<br>Sets which video signal to synchronize the audio signal with. | HDMI*: Synchronizes the audio with the video signal from HDMI OUT.
Progressive: Synchronizes the audio with the progressive video signal from COMPONENT VIDEO OUT.
Interface: Synchronizes the audio with the Interface video signal from COMPONENT VIDEO OUT(480i), VIDEO OUT or S-VIDEO OUT.
Other: Select this when you want to view progressive, interlaced and HDMI pictures simultaneously. The audio signals are set to the optimum timing for the respective pictures. (They are not synchronized.)

**Still Mode**<br>Adjusts picture resolution and quality in still mode. | Auto*: Automatically selects the best resolution setting (“Frame” or “Field”) based on the data characteristics of the pictures.
Field: Stabilizes the pictures, although the picture quality may become coarse due to the limited amount of data. Select “Field” when the pictures are still unstable even if “Auto” is selected.
Frame: Displays relatively motionless pictures in higher resolution. “Frame” improves the picture quality, although it may un-stabilize the pictures due to alternate output of two field data.
Function Setup

**Setting Items**

| TV Active Area | Normal: Select this if the image is not stable with connecting to professional-use display.
| Full*: Select this for connecting to commonly-marketed display. |
| Settings with (*) are the default. |
| For "HDMI RGB Setting", select "Enhanced" if the black-white contrast is not clear. The setting is effective only for HDMI RGB output. |
| An individual picture on the screen is called as “Frame”, which consists of two separate images called as “Field”. Some pictures may be blurred at the auto setting in “Still Mode” due to their data characteristics. |
| If the picture is not output properly to the display device because of the "HDMI Video Resolution" or "Component Output" setting, press and hold \( B \) on the front panel for more than 5 seconds. Both settings will be reset to the default automatically. |
| If "Component Output" is set to "480i", "4:3 Squeeze Auto" and "4:3 Squeeze On" in "TV Aspect" are not available. |
| If HDMI is connected, for video resolution for the component output, you can only select video resolution that currently output from HDMI OUT or 480i. |
| If the video resolution for the component output and HDMI video resolution does not match, the video resolution for the component output will be switched to current HDMI output resolution. |
| Mix Audio Output*: Output the secondary and interactive audio with primary audio if it is available or only the primary audio. |
| HD Audio Output: Output only the primary audio. Set this mode in order to output Dolby Digital, Dolby Digital Plus, Dolby TrueHD, DTS or DTS-HD sound of BD through HDMI connection. |
| HDMI Multi(PCM): The multi-channel audio signals are output from the HDMI OUT with a PCM. |
| - For how to select the setting items and options, refer to “Custom” on page 29. |

**Wall Paper**

- Sets the picture to be displayed on the screen for stop mode or audio playback mode.

| Picture | Blue |
| Black |
| Gray |

- Settings with (*) are the default.
- Quick menu consists of the setting menus frequently used, and they are accompanied with mark.
- For “HDMI RGB Setting”, select “Enhanced” if the black-white contrast is not clear. The setting is effective only for HDMI RGB output.
- An individual picture on the screen is called as “Frame”, which consists of two separate images called as “Field”. Some pictures may be blurred at the auto setting in “Still Mode” due to their data characteristics.
- If the picture is not output properly to the display device because of the “HDMI Video Resolution” or “Component Output” setting, press and hold \( B \) on the front panel for more than 5 seconds. Both settings will be reset to the default automatically.
- If “Component Output” is set to “480i”, “4:3 Squeeze Auto” and “4:3 Squeeze On” in “TV Aspect” are not available.
- If HDMI is connected, for video resolution for the component output, you can only select video resolution that currently output from HDMI OUT or 480i.
- If the video resolution for the component output and HDMI video resolution does not match, the video resolution for the component output will be switched to current HDMI output resolution. COMPONENT VIDEO OUT jacks may not output any signals depend on the disc material.
- If you play back copy-protected DVD video, 480p signal will be output from the COMPONENT VIDEO OUT jacks, when “Component Output” is set to “720p” or “1080i.”
- If connected display device does not support 1080p24 frame or “I/P Direct” is set to “Off”, “1080p24” in “HDMI Video Resolution” will be displayed in gray and you cannot select the item.
- For playing back BD, if you set “Component Output” to “480i”, 480p signal will be output from the COMPONENT VIDEO OUT jacks.
- The setting item which is not available with current situation of this unit will be displayed in gray and you cannot select the item.
- Even if “HDMI Select” is set to “YCbCr”, if the display device does not support YCbCr, RGB will be output.
- If “HDMI Video Resolution” is set to “1080p” or “1080p24”, you cannot set “Component Output”.

**Setting items**

| BD Audio Mode | Mix Audio Output |
| Mix Audio Output*: Output the secondary and interactive audio with primary audio if it is available. |
| HD Audio Output: Output only the primary audio. Set this mode in order to output Dolby Digital, Dolby Digital Plus, Dolby TrueHD, DTS or DTS-HD sound of BD through HDMI connection. |
| HDMI Multi(PCM): The multi-channel audio signals are output from the HDMI OUT with a PCM. |
| HDMI Multi(LPCM): The multi-channel audio signals are output from the HDMI OUT with a LPCM. |
| - Refer to page 34-35 for setting options. |

**HDMI Audio Out**

- Sets the audio format for the audio output from the HDMI OUT.

| HDMI Multi(PCM): The multi-channel audio signals are output from the HDMI OUT with a PCM. |
| HDMI Multi(LPCM): The multi-channel audio signals are output from the HDMI OUT with a LPCM. |
| - Refer to page 34-35 for setting options. |

| HD Audio Output: Output only the primary audio. Set this mode in order to output Dolby Digital, Dolby Digital Plus, Dolby TrueHD, DTS or DTS-HD sound of BD through HDMI connection. |
| HDMI Multi(PCM): The multi-channel audio signals are output from the HDMI OUT with a PCM. |
| HDMI Multi(LPCM): The multi-channel audio signals are output from the HDMI OUT with a LPCM. |
| - Refer to page 34-35 for setting options. |

Audio Mute:
Mutes the HDMI audio signal, and set the signal format of the DIGITAL OUT.
- Refer to the “Digital Out Setting” on page 33 for setting options.

- The default setting of the "BD Audio Mode" is "Mix Audio Output". If you want to output only the high quality primary audio, set "BD Audio Mode" to "HD Audio Output".
### Function Setup

#### Setting Items | Options
--- | ---
**7.1ch Audio Out**<br> Sets the audio format for the audio output from the 7.1ch AUDIO OUT. | Multi Channel*: The multi-audio signals are output from the 7.1ch AUDIO OUT. Refer to pages 34-35 for setting options.  
2 Channel: Down-mixed 2-channel audio signals are output from the 7.1ch AUDIO OUT jacks.

**Down Sampling**<br> Sets the digital audio output when playing BD or DVD recorded in LPCM. | On: LPCM signals are converted to 48 kHz for output.  
- Set to "On" when using digital connections to an AV amplifier that is not compatible with sampling frequencies of 96 kHz.  
Off*: For BD or DVD recorded in LPCM without copyright protection, 2-channel audio signals up to 192 kHz are output as LPCM signals with no conversion.

**DRC**<br> Sets whether to compress the range of sound volume (Dynamic Range Control) when Dolby Digital, Dolby Digital Plus or Dolby TrueHD audio is played back. | Auto*: When the discs that are recorded in the Dolby TrueHD format is in playback, this unit detects DRC setting of the disc and set the DRC setting of this unit to "On" or "Off" automatically.  
Off  
On

**Source Direct**<br> Sets to output the audio without adding speaker settings to the audio signals from the disc. | On: Select this to output the audio without any effect of speaker setting.  
Off*: Select this to output the audio with the effect of speaker setting.

**Bass Enhancer**<br> Sets whether to output the subwoofer when playing back content that does not have LFE (Low Frequency Effect) signal. (e.g. content with only 2 channel audio signal.) | On: Audio signal will be output from the subwoofer. (Please set "Subwoofer" in the "Speaker Configuration" to "On").  
Off*: No audio signal will be output from the subwoofer.

**Audio Adjust**<br> Sets the amount of the delay time between the picture and audio signal. | 0ms to 200ms (0ms*): The audio signal will be delayed for the amount of time you set.

---

### Digital Out Setting

When the "Audio Mute" is selected in "HDMI Audio Out" setting, audio signal of the HDMI is muted and the audio signals output from DIGITAL OUT changes depending on the "Digital Out" setting.

#### Setting Items | Options
--- | ---
**Virtual Surround**<br> Sets to create a surround effect in a system with 2 speakers connected. | Off*: Virtual surround is set to off.  
1: A natural surround effect in a system with 2 speakers connected.  
2: A stronger surround effect in a system with 2 speakers connected than "1".

#### Audio Adjust<br> Setting Items | Options
--- | ---
**Bitstream***: When playing back discs recorded in Dolby Digital, Dolby Digital Plus, Dolby TrueHD, DTS or DTS-HD, the corresponding core stream (Dolby Digital or DTS) are output.  
LPCM: LPCM signal will be output from DIGITAL OUT.

- This setting is not effective when the HDMI audio signal is output.  
- When both HDMI and DIGITAL OUT is connected to other devices, the audio signals currently output from the HDMI OUT will be output from the DIGITAL OUT jack as well, except that Dolby Digital signal will be output instead of Dolby Digital Plus and Dolby TrueHD, and DTS signal will be output instead of DTS-HD.  
- When "BD Audio Mode" is set to "HD Audio Output", Dolby Digital Plus, Dolby TrueHD, or DTS-HD will be output as core stream (Dolby Digital or DTS). If the audio source is Dolby Digital, DTS, or LPCM, the same audio stream type set in the "HDMI Audio Out" will be output. (When outputting Multi LPCM from HDMI OUT, 2ch Downmix LPCM will be output from DIGITAL OUT.)  
- When "BD Audio Mode" is set to "Mix Audio Output", the audio output from DIGITAL OUT will follow the setting in the "HDMI Audio Out". (When outputting Multi LPCM from HDMI OUT, 2ch Downmix LPCM will be output from DIGITAL OUT.)
**Function Setup**

**Speaker Setting**

This unit allows you to enjoy multi-channel surround sound such as 7.1-channel / 5.1-channel surround.

*Example of basic layout with 7.1ch surround system*

To make the most of its feature, set up your speakers appropriately by referring to the table below.

Speaker setting options are available at the following locations:

- **<Speaker setting for the audio signal output from the HDMI OUT jack>**
  - Setup ➔ Quick ➔ HDMI Audio Out ➔ HDMI Multi(LPCM)
  - Setup ➔ Custom ➔ Audio ➔ HDMI Audio Out ➔ HDMI Multi(LPCM)

- **<Speaker setting for the audio signal output from the 7.1ch AUDIO OUT jacks>**
  - Setup ➔ Quick ➔ 7.1Ch Audio Out ➔ Multi Channel
  - Setup ➔ Custom ➔ Audio ➔ 7.1Ch Audio Out ➔ Multi Channel

---

How to navigate through the “HDMI Multi(LPCM)” and “Multi Channel” setting

1) Use [△ / ▽] to select the menu item.
2) Use [△ / ▽] to select setting items.
3) Use [< / >] to select desired options. (Except for “Test Tone” and “Default”.)

**For “Test Tone”:**

- Use [△ / ▽] to select “Manual” or “Auto”, then press [ENTER].
- The test tone will be output. If you select “Manual”, use [△ / ▽] to select speaker, then use [< / >] to adjust the volume. If you select “Auto”, use [< / >] to adjust the volume of the speaker that output the test tone.
- If you want to stop the test tone, press [RETURN].

**For “Default”:**

- Press [ENTER] to reset the “Delay Time” setting to the default.

4) Press [SETUP] to exit.

Select "Manual", then press [ENTER] to manually set the volume for the desired speaker. Select "Auto", then press [ENTER] to automatically output the test tone from each speakers. |
| Front Lch | 0 dB to -12 dB (0 dB*) | If you have selected "Manual" in "Test Tone", select the desired speaker to set and adjust the volume for the selected speaker. If you have selected "Auto" in "Test Tone", test tone will be output automatically in order. Adjust the volume of the speaker that output the test tone. | |
| Center | 0 dB to -12 dB (0 dB*) | | |
| Front Rch | 0 dB to -12 dB (0 dB*) | | |
| Surround Rch | 0 dB to -12 dB (0 dB*) | | |
| Surround Back Lch | 0 dB to -12 dB (0 dB*) | | |
| Surround Back Rch | 0 dB to -12 dB (0 dB*) | | |
| Surround Lch | 0 dB to -12 dB (0 dB*) | | |
| Subwoofer | 0 dB to -12 dB (0 dB*) | | |
| SW + 10 dB | On/Off* | Set "On" to increases the volume level that is output from the subwoofer by 10 dB. | |

**Delay Time**

- Settings with (*) are the default.
- For HDMI, "None" and "Off" options for "Speaker Configuration" are not available.
- For "Delay Time", the difference among the value of the each speaker cannot exceed 15 ft (4.5m).
- If you want to stop the test tone, press [RETURN].
Ratings control allows you to set a limit, which prevents your children from viewing inappropriate materials. Playback will stop if the ratings exceed the levels you set, and it will require you to enter a password before the disc will play back.

1) Use [△/▽] to select , then press [ENTER].
2) Press [the Number buttons] to enter your 4-digit password.

For the first time use: Press [the Number buttons] to enter any 4-digit number (except for 4737), then press [ENTER]. That number will be used as the password from the second time. Record your password in case you forget it.

• If you forgot the password, enter [4], [7], [3], [7]. The password will be cleared and rating level will be set to “All”.
• While you input the password, press [CLEAR] to clear the number, then re-enter the password.

Proceed to A – C
A) BD Rating Level
1) Use [△/▽] to select “BD Rating Level”, then press [ENTER].
2) Use [△/▽] to select your desired option, then press [ENTER].
   “All” : To release the limitation.
   “Age Setting”: To set the age limitation.
   • After selecting “Age Setting”, use [the Number buttons] to enter the age from 0 – 254, then press [ENTER].
   (e.g. for age 15, press [0][1][1][5])
3) Press [SETUP] to exit.

B) DVD Rating Level
1) Use [△/▽] to select “DVD Rating Level”, then press [ENTER].
2) Use [△/▽] to select a desired level, then press [ENTER].
3) Press [SETUP] to exit.

C) Password Change
1) Use [△/▽] to select “Password Change”, then press [ENTER].
2) Enter a new 4-digit password, then press [ENTER].
3) Press [SETUP] to exit.

RATING EXPLANATIONS
- All : Parental control is inactive; all discs can play back.
- 8 [Adult] : DVD software of any grades (adult/general/children) can be played back.
- 7 [NC-17] : No one under 17 admitted.
- 6 [R] : Restricted; under 17 requires accompanying parent or adult guardian.

#### Initialize

Initialize the setting or SD Memory Card.

1) Press [SETUP] in stop mode.
2) Use [◄ / ►] to select “Initialize”, then press [ENTER].
3) Use [△ / ▽] to select a desired option, then press [ENTER].
   - "No" : Exit without any initialization.
   - "Setup" : Reset the SETUP setting to the factory default.
   - "Memory Device" : Initializes the SD Memory Card. After confirmation message appears, use [△ / ▽] to select “Yes”, then press [ENTER].
4) Press [ENTER]. (For “Setup” and “Memory Device” only)
5) Press [SETUP] to exit.

**Note**

- The setting for “Ratings” will not be reset.

Troubleshooting

If the unit does not perform properly when operated as instructed in this Operating Instruction, check the unit, consulting the following checklist.

<table>
<thead>
<tr>
<th>Problem</th>
<th>Solution</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>No power</td>
<td>- Check if the AC cord is properly connected. - Unplug the AC cord once, and wait for 5-10 seconds and then plug it in again.</td>
<td>–</td>
</tr>
<tr>
<td>No sound or picture</td>
<td>- Check if the HDMI connection is turned on. - Check the HDMI connection. (Check the status of the HDMI related indications.) - Check the RCA audio/video cable connections. - Check if the pure direct mode is set to “Video Off” or “All Off”. If it is the case, set it to “Display Off” or “Normal”. - Check whether the connected display device or other device supports HDCP. (This unit will not output a video signal unless the other device supports HDCP.) - Check whether the output format of this unit (HDMI FORMAT) matches the supported input format of other connected device. - Check if the “HDMI Deep Color” is set to “Auto”. If it is the case, set it to “Off”. - Check if the “I/P Direct” is set to “On”. If it is the case, set it to “Off”.</td>
<td>–</td>
</tr>
<tr>
<td>Distorted picture</td>
<td>- Sometimes a small amount of picture distortion may appear. - This is not a malfunction. - Connect this unit directly to the TV. If the RCA audio/video cables are connected to a VCR, pictures may be distorted due to the copy protection system.</td>
<td>–</td>
</tr>
<tr>
<td>Completely distorted picture or black/white picture with BD/DVD</td>
<td>- Make sure the disc is compatible with this unit.</td>
<td>4</td>
</tr>
<tr>
<td>No sound or distorted sound</td>
<td>- Adjust the volume. - Check that the speakers are connected correctly. - Check the HDMI connections. - Check the “Audio” settings.</td>
<td>–</td>
</tr>
<tr>
<td>Picture freezes momentarily during playback</td>
<td>- Check the disc for fingerprints/scratches and clean with a soft cloth wiping from center to edge. - Clean the disc.</td>
<td>4, 10, 12, 13, 10, 32, 33</td>
</tr>
<tr>
<td>Disc cannot be played back</td>
<td>- Clean the disc. - Ensure the disc label is facing up. - Check if the disc is defective by trying another disc. - Cancel the ratings control or change the control level. - Insert a correct disc that can be played back on this unit.</td>
<td>4, 14, 36</td>
</tr>
<tr>
<td>SD Memory Card cannot be read</td>
<td>- The format of the card does not match to this unit or the card is not compatible.</td>
<td>–</td>
</tr>
<tr>
<td>No return to start-up screen when disc is removed</td>
<td>- Reset this unit by turning it off, then on again.</td>
<td>–</td>
</tr>
<tr>
<td>The unit does not respond to the remote control</td>
<td>- Aim the remote control directly at infrared sensor window on the front of the unit. - Reduce the distance to infrared sensor window. - Replace the batteries in the remote control. - Re-insert the batteries with their polarities (+/- signs) as indicated. - Make the signal code of the remote control match to the signal code of the unit.</td>
<td>6</td>
</tr>
</tbody>
</table>

Note

- Some functions are not available in specific modes, but this is not a malfunction. Read the description in this Operating Instructions for details on correct operations.
- Some functions are prohibited on some discs.

Specifications

**SIGNAL SYSTEM**
NTSC color

**APPLICABLE DISCS**
(1) BD/DVD-video Discs
   - 1-layer 12cm single-sided discs, 2-layer 12cm single-sided discs, 2-layer 12cm double-sided discs
   - 1-layer 8cm single-sided discs, 2-layer 8cm single-sided discs, 2-layer 8cm double-sided discs
(1 layer per side)

(2) BD-RE / BD-R
   - 1-layer 12cm single-sided discs, 2-layer 12cm single-sided discs
   - 1-layer 8cm single-sided discs, 2-layer 8cm single-sided discs

(3) DVD-R
   - 1-layer 12cm single-sided discs, 2-layer 12cm single-sided discs, 2-layer 8cm single-sided discs

(4) DVD-RW
   - 1-layer 12cm single-sided discs, 1-layer 8cm single-sided discs

(5) Compact discs (audio CD)
   - 12cm discs, 8cm discs

(6) CD-RW/-R
   - 12cm discs, 8cm discs

**APPLICABLE MEMORY CARDS**
(1) SD Memory Card
(2) SDHC Memory Card
(3) miniSD Card
(4) microSD Card

**S-VIDEO OUTPUT**
Y output level: 1Vp-p (75Ω)
C output level: 0.286Vp-p
Output connectors: S connector, 1 set

**VIDEO OUTPUT**
Y output level: 1Vp-p (75Ω)
Output connectors: Pin jack, 1 set

**COMPONENT OUTPUT**
Y output level: 1Vp-p (75Ω)
Pn/Cn output level: 0.648Vp-p (75Ω)
Output connectors: BNC jacks, 1 set/Pin jacks, 1 set

**HDMI OUTPUT**
Output jack: 19-pin HDMI terminal, 1 set
HDMI ver. 1.3a (Deep Color, Dolby Digital Plus, Dolby TrueHD, DTS-HD)

**ANALOG AUDIO OUTPUT**
Output level: 2Vrms
2 channel (L, R) output connector: Pin jacks,
Multi channel (FL, FR, C, SL, SR, SBL, SBR, SW): Pin jacks, 1 set

**AUDIO OUTPUT PROPERTIES**
(1) Frequency response
   - 1 BDs (linear PCM): 4Hz to 22kHz (48kHz sampling)
   - 1 BDs (linear PCM): 4Hz to 44kHz (96kHz sampling)
   - 1 BDs (linear PCM): 4Hz to 88kHz (192kHz sampling)
   - 2 DVDs (linear PCM): 4Hz to 22kHz (48kHz sampling)
   - 2 DVDs (linear PCM): 4Hz to 44kHz (96kHz sampling)
   - 3 CDs: 4Hz to 20kHz
(2) S/N ratio: 125dB
(3) Total harmonic distortion: 1kHz: 0.0008%
(4) Dynamic range: 110dB

**DIGITAL AUDIO OUTPUT**
- Optical digital output: Optical connector, 1 set
- Coaxial digital output: Pin jack, 1 set

**POWER SUPPLY**
AC 120V, 60Hz

**POWER CONSUMPTION**
68W (Standby: 0.8W)

**MAXIMUM EXTERNAL DIMENSIONS**
W: 440mm (17-3/8”)
H: 140mm (5-9/16”)
D: 402mm (15-13/16”)
(including protruding parts)

**MASS**
10.5 kg (23.1 lbs)

**REMOTE CONTROL**
RC001BD
Infrared pulse type
Supplied: DC 3V, 2 R6P/AA batteries
External dimensions: W: 52mm (2-1/16”)
H: 227mm (8-15/16”)
D: 30mm (1-3/16”)
Mass: 171g (0.4 lbs) (included batteries)
